Final Rejection

Applicant's arguments filed 10/15/03 have been fully considered but they are not persuasive for reasons detailed below.

The 35 U.S.C. 112 rejections are maintained or modified as follows:

Claims 42-45 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 42, Applicant has previously defined a fastening means with a fastener in base claim 35, but, with the instant amendment, proceeds to re-define the fastener in claim 42, thus rendering the scope of the claims indefinite. Applicant is reminded that dependent claims must further limit the parent claim. Moreover, when it is unclear whether claim elements are being defined twice as in the instant claims, the claims are indefinite under 35 U.S.C. 112, second paragraph.

Regarding claims 43-45, the scope of these claims is indefinite as it is unclear whether Applicant is claiming a fastening means or otherwise. Applicant is again reminded that dependent claims must further limit the parent claim. Here, Applicant claims a fastening means in the base claim, but proceeds to limit the claim scope to a fastener and a stringer in the dependent claims, thus leading to confusion when interpreting the claims. See MPEP 2173.05(f) and (o).

The prior art rejections have been withdrawn.

Specification

Claim Objections

Claims 42-45 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim.

Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

The claims are also objected to as the form of claims 35-45 is improper. Where a claim sets forth a plurality of elements or steps, as in the instant claims, each element or step should be separated by a line indentation. See MPEP 608.01(m) and 37 CFR 1.75(i).

Claims 35-45 are also objected to because of the following informalities:

The claims depending from claim 35 should read "The fastening means as claimed in claim".

Claims 41, line 1 should read "The fastening meanss".

Appropriate correction is required.

Examiner has maintained the prior art rejections, statutory rejections and drawing objections as previously stated and as modified above. Applicant's amendment necessitated any new grounds of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a). The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
